## German Cabinet Says Treaty Will Be Rejected

### ENGINE TROUBLE PREVENTS START ON LISBON FLIGHT

Navy Plane NC-1 Sinks and NC-3 Will Be Sent Home.

### THIRD WILL CONTINUE TRIP WHEN TROUBLE IS FOUND

No Trace is Found of Aviator Hawker and Hope Is Abandoned.

(Associated Press Telegram)  
Washington, May 21.—Resumption of the trans-Atlantic flight by the naval seaplane NC-4 has been delayed, according to the navy department early this morning from Admiral Jackson at Ponta Delgada said one of the plane's engines had developed trouble and that the start for Lisbon would not be made today. No mention was made of weather conditions.

The text of the message read:  
"NC-4 will not start today. One engine not functioning properly."  
The burden of the carrying through the flight which gave such splendid indications of success until the three planes ran into fog off the Azores early Saturday morning was shifted solely to the NC-4 yesterday with the announcement that the NC-1 had sunk and the NC-3, flagship, had been so severely damaged she then was being dismantled preparatory to shipment back home.

The distance to Lisbon is about 900 miles and it is stated the trip should be made in 10 hours, thereby making night flying unnecessary as was the case in the flight from Trepassy to the Azores.

### CREW OF NC-3 GAVE UP HOPE FOR RESCUE

Ponta Delgada, May 21.—"Exceptionally bad weather, which was worse than expected, was the sole reason for the failure of the flight of the American navy's seaplanes to fly from Trepassy, Newfoundland, to Ponta Delgada on schedule time," said Commander John H. Towers to the correspondent of the Associated Press last night.

"The men who commanded the over-sea flight in his flagship NC-3 and the members of his crew, who had received a severe buffeting both from the storm overhead and the turbulent sea when the plane was damaged Saturday in alighting on the water, were again refreshed after having regained sleep last night after being kept for 16 hours and being adrift 33 hours more, entirely out of communication with the world."

"Individually," said Commander Towers, the men "gave up hope of being rescued Saturday night, but collectively they showed no signs of fear and 'carried on' until they arrived in port here Monday and heard the forts firing salvoes in welcome and witnessed the scenes of jubilation over their escape from the sea."

### TWO MORE PLANES TO START FROM ST. JOHNS

St. Johns, N.F., May 21.—The selection of Frederick H. Rayburn's Martinique plane, a thing of frail appearance stripped of its covering of linen and veneer, was set up in a repair shop today to be reassembled.

Capt. C. W. F. Morgan indicated that he would not fly with Rayburn in the plane, but that he would fly with the machine in being rebuilt. He said when he recovered from his injuries he would make an effort to obtain a new plane and start an independent flight for the British Isles.

An attempt is to be made by the navy aviators preparing for flight to obtain more satisfactory weather reports than any heretofore obtained. Meteorologists of the expeditions met last night and considered defects due to the transmission delays and the fact that the British air ministry for more voluminous reports.

### ARMEN BELIEVE HAWKER PLANE SOON FAILED

St. John's, N.F., May 21.—"Hope for the safety of Harry G. Hawker and Commander Mackenzie Grieve, missing since they set out eastward through the air on Sunday in their Sopwith biplane for Ireland, was shattered today when the British flyers, preparing here to take wing in their wake, news of the safety of the NC-4 after being so long on the water had been a source of encouragement but it is recognized that the Hawker Grieve machine, lost only a week ago, was abandoned here as compared with the stout hull of the American naval plane."

Regarding the fate of Hawker and Grieve, some of the armers here believe the Sopwith collapsed within a short time after leaving St. John's, and that the machine was abandoned here. The opinion is gaining ground that the loss of the machine was due to engine trouble and not to the fact that the machine was so old and had been in service for one hundred miles and the work of the engine through the intense cold congealing the oil. The American armers who flew to Trepassy from St. John's, N. F., found that this condition caused them serious trouble, some of which virtually burned out from this cause, according to officers aboard the United States supply ship Francis.

### GERMANS ASSERT NO PROOF GIVEN OF RESPONSIBILITY

Envoy's Ask For Report of Commission Which Fixed War Blame

### REFUSE TO TAKE BLAME FOR ACTS OF FORMER GOVERNMENT

People Convinced That They Fought a Defensive War.

(Associated Press Telegram)  
Paris, May 21.—It is too late for Germany to seek to deny both the aggression in the war and her responsibility for it.

This declaration is made by Premier Clemenceau, as president of the peace conference in replying to the German note on reparations, the text of which with the reply, was made public last night.

The argument put forth by Count von Brockdorff-Rantzau, was that Germany did not start a war of aggression, that the German people were convinced they fought a defensive war and that the present German government cannot be held responsible for "faults" of the former German government.

Premier Clemenceau takes up the points made by the German delegation and declares that the German government has never made any attempt against the charge in a note of Secretary of State Lansing that Germany was the aggressor. The president of the conference points further that Germany made the French government of 1871 and the Russian government of 1917 responsible for the acts of the imperial regime in France and Russia.

### 3000 YANKS LOOK LIKE GREAT ARMY

Single Regiment of U. S. Infantry in Italy Made Austrians Believe 300,000 Were There.

(Associated Press Telegram)  
Paris, May 21.—The peace conference last night made public the text of the German note regarding reparations and the reply made by Premier Clemenceau as president of the conference. The German note reads:

"At Versailles, M. Clemenceau, president of the Peace Conference, said: 'Sir, in the draft of the peace treaty submitted to the German delegates, Part VIII, concerning reparation, begins with Article 231, which reads as follows: 'The allied and associated governments affirm and Germany accepts the responsibility of Germany and her allies for causing all the loss and damage to which the allied and associated governments subjected as a consequence of the war imposed upon them by the aggression of Germany and her allies.'"

"Now the obligation to make reparation has been accepted by Germany by virtue of the note from Secretary of State Lansing, of November 5, 1918, independently of the question of responsibility for the war. The German delegation cannot admit that there could arise out of responsibility incurred by the German government in regard to the origin of the world war any right for the allied and associated powers to be indemnified by Germany for losses suffered during the war."

"The representatives of the allied and associated states have, moreover, declared several times that the German people should not be held responsible for the faults committed by their governments. The German people did not will the war and would not have undertaken a war of aggression. They have always remained convinced that this war was for them a defensive war."

"The German delegates also do not share the view of the allied and associated governments in regard to the origin of the war. They cannot consider the former German government as the party which was solely or chiefly to blame. The draft of the treaty of peace transmitted by you contains no facts in support of this view; no proof on the subject is furnished therein. The German delegates, therefore, beg you to be so good as to communicate to them the report of the commission set up by the allied and associated governments for the purpose of establishing the responsibility of the authors of the war."

"Pray accept, Mr. President, the assurances of my high consideration. (Signed) Brockdorff-Rantzau."

### EX-LIEUTENANT DIES IN CANTON PRISON

(Associated Press Telegram)  
Canton, May 21.—H. R. Guy, aged 24, said to be a discharged lieutenant from the United States army, was found dead in a cell in the city prison this morning. Coroner McQuate announced death was due to acute alcoholism and the sudden taking of a drink from the man when he was lodged in jail.

Guy had been held several days here on a charge of obtaining money by false promises by the use of stolen checks. He was registered on the police books as having had a home in Youngs Bay.

**RAIL CLERKS CHOOSE DALLAS.**  
Cincinnati, May 21.—Dallas, Tex., was chosen over six other cities as the place for holding the next triennial convention of the Brotherhood of Railway Clerks, Freight Handlers, Express and Station Employees, when the result of the vote was announced here today.

Grand President James J. Forrester of Washington, D. C., was re-elected for three years.

### HARRY HAWKER STARTLED WORLD MANY TIMES WITH AIR FEATS

View of Sopwith airplane with which Harry Hawker, aided by Commander Mackenzie Grieve, set out to cross Atlantic and pictures of Hawker and Mrs. Hawker and their baby.

Harry Hawker, daring Australian aviator who set out to fly across the Atlantic in one "hop" from St. John's, N. F., to Ireland or England, gained world-wide fame for his daring flying early in the development of aviation. As far back as 1912 he set a record for

sustained flying and soon after set records for altitude flying alone and with passengers. No one was more confident of his ability to cross the Atlantic than Mrs. Hawker, who waited for him in their home in England with their baby.

### SALVADOR SENDS A NEW MINISTER

### WILL NOT MODIFY DRY LAW AT ONCE

Leaders Plan Passage of Laws to Enforce War-Time Prohibition and Dry Amendment.

(Associated Press Telegram)  
Washington, May 21.—Notwithstanding President Wilson's recommendation for repeal of the prohibition laws, the House today passed a bill to amend the prohibition laws, which would not modify the dry law at once.

The bill, which was introduced by Representative Clegg, of Ohio, provides for the enforcement of the prohibition laws during the war. It also provides for the amendment of the prohibition laws to make them more effective.

The bill was passed by a vote of 219 to 191.

### JOHNSON HONORED BY "Y" WORKERS

Complimentary Dinner Is Tendered Former Secretary of Newark Association Tuesday Evening.

Forty men attended the Y. M. C. A. membership banquet at O'Neill's restaurant Tuesday evening. The toastmaster, Dr. C. V. Prior, succeeded in getting a dozen or more men to their feet, all speaking from various angles of the work, and most of them eventually getting around to the paramount subject of the evening—the guest-of-honor, Frank L. Johnson, Earl Woodward, founder of "The Game, Volleyball and Life," following him, C. F. Lander spoke on "The Y. M. C. A. Membership," and his program. Harry Doane gave a little sketch of the new program of the local Y. under the title, "Getting Acquainted With a Town." Kirby Lickerson, of whom the "Y" boasts a goodly number, Harry Alexander spoke to some length on "Johnson, the Soldier," and when he took his seat all felt that he had but wasted the surface of his subject. Extensive speakers included Charles L. Flory, Harry Davis, Dr. C. L. Wyeth, Andrew Mitchell, C. H. Spencer, E. S. Miller, Rev. Dr. Weld, Fred Abbott, and others.

C. H. Davis paid a glowing tribute to "Johnson, the Man," as he had known him, and this was supplemented by many others; some spoke feelingly of the work he had accomplished in Newark during his seven years residence. The talk of the evening was made by Mr. Johnson himself, who, although just over a tonal operation, spoke of the work of the army over there, and thanked his many friends for their kind words. Gable's Saxophone quartet rendered music throughout the evening. Mr. Johnson expects to leave Newark within two weeks. He will return to France and expects to go to India in the fall.

### TWO-THIRDS OF OHIO GAS IS IMPORTED

Canton, May 21.—Attorney General John G. Price in a statement yesterday, declared that the people of Ohio are not awake to the seriousness of the situation caused by the passage of the Steptoe gas bill by the West Virginia legislature, which became effective May 18.

If the bill is put in operation more than 725,000 feet of gas in Ohio would be hard hit. Attorney General Price pointed out.

Latest statistics show that 162,000,000 cubic feet of gas were consumed last year in Ohio, an amount more than 100,000,000 feet came from the West Virginia fields.

### TOY BALLOON FLIES NEARLY TWENTY MILES

Charles Markle, 16 years old, sent up a toy balloon on May 4 and on May 5 the balloon was found in the southeast corner of Knox county.

Markle, who lives at 32 North Boone Ave., said that he took a pony rubber ball, inflated it with natural gas and tied a string around the mouth, attaching a note with his name, address and the request "answer soon as found."

He has received a letter from Laura Logan, who states he lives in the southern corner of Knox county and that he found the balloon on May 5.

## DESCRIBES TERMS AS PARAGRAPHED "SONG OF HATE"

STATEMENT GIVEN ASSOCIATED PRESS IN BERLIN SAYS THEY SPELL POLITICAL DISHONOR FOR GERMANY.

### DECLARES NATION HAS CLAIM UNDER LAW ON ALL ALLIES, ESPECIALLY U. S.

Cabinet Declares Every Individual In America Is Responsible For President's Peace Plan and Fulfillment of Its Claims.

(Associated Press Telegram)  
Paris, May 21.—Count von Brockdorff-Rantzau, head of the German peace delegation, has asked an extension of time for Germany to present her reply regarding the peace terms.

The count stated that further notes were being prepared and that it would be impossible to complete them by 1 p. m. Tuesday, when the limit is up.

It is believed, says the Havas Agency, that the request for the extension will be granted.

The note says the Germans desire more time to study a number of questions in the treaty which they have not yet had an opportunity to examine. There is no official intimation regarding the decision of the allied and associated powers on the request.

(Associated Press Telegram)  
Berlin, Tuesday, May 20.—"Germany declines to sign the peace terms laid before it because they spell the economic destruction, political dishonor and moral degradation of the entire German nation, not only for the present but also for still unborn generations," was a statement authorized by the cabinet this morning through the Associated Press.

"That these consequences must logically follow acceptance of the peace conditions the American press itself has recognized without question," the statement continues. "Toward them Germany has the standpoint that acceptance of such conditions could not be demanded and that the entente was unjustified in imposing such demands."

"Germany has not only a moral right to continue with the general promises made it, but a firmly grounded, definite, clearly defined claim, according to the basic rules of international law, on all the entente powers and especially on the United States. A specific recognition of the right of the German people to a peace of right, justice and reconciliation. Instead of the paragraphed song of hate which was written at Versailles, is contained in the not of the American secretary of state, Lansing, of Nov. 5, 1918."

"In it the secretary of state notified the Swiss minister in Washington unconditionally that the established basis of President Wilson's 14 points should be authoritative for the peace conditions. The German government announced further that the entente governments after careful consideration also were prepared to recognize the conditions set up by President Wilson as the basis for the conclusion of peace."

"The declaration of rights emanating from these specific declarations of all the entente powers and the United States constitutes Germany's sole asset in the general moral breakdown of all international politics which has found its expression in the Versailles terms."

"Germany answers them with its clearly juristic right in international law. Toward the political bankruptcy of Versailles the German nation stands as a creditor with claims for the fulfillment of its claims."

"It is not the German people's business to indicate how its rights shall be realized by the 14 points, or especially by the note of Secretary Lansing. That is the task of those who come to the acceptance thereby including Germany to lay down her weapons. We do not believe that President Wilson's message of December 4, 1917, contained categorically when he said: 'We would dishonor our own conscience if we rejected Germany with any other than a non-partisan manner and did not insist upon justice toward all, no matter how the war ended. We demand nothing which we are not ready ourselves to admit.'"

"Nothing more than that which President Wilson announced in this declaration. We demand nothing more than that Americans place the 14 points opposite the peace terms with which we are faced Germany with other than a non-partisan manner and did not insist upon justice toward all, no matter how the war ended. We demand nothing which we are not ready ourselves to admit."

### CENTRAL TIME IS FIXED FOR NEWARK

According to a telegram sent in response to inquiry made by the Advocate as to whether Newark would be in eastern or central time zone, Secretary McGinty of the Interstate Commerce Commission stated Newark was in the central time zone.

The telegram read:  
"Newark is on line between eastern and central zones and takes the central time. The B. & O. between Newark and Willard (Chicago Junction) takes eastern time."

## SCHOOL BOARD NAMES TEACHERS FOR NEXT YEAR AND INCREASES SALARIES

Bond Issue of \$100,000 Is Proposed To Meet Extra Expenses and Take Care of Floating Debt Domestic Science Girls Serve Dinner to Board Members.

The list of school teachers appointed for the 1914-15 school year, presented to the school board at last night's meeting was approved by the members of the board. At the same time Superintendent Barnes presented a plan for the revision of the salary schedule which was approved by the board. Under the schedule increases were provided which will place the salaries of the teachers on a more equitable basis.

Previous to the meeting the annual dinner under the direction of the domestic science department of the high school was served the board members. Superintendent O. J. Barnes, Principal H. F. Moninger and Superintendent of Supplies Frank Handel, it was a five course dinner prepared and served by the girls of the high school under the supervision of the director of domestic science, Miss Edith Clark. The teachers appointed are: Edith McCoy, C. W. Klepp, W. E. Painter, Edith Clark, A. R. Long, Gladys Koenen, H. F. Moninger, L. G. Miller, J. W. Swanick, A. Tait, Anne Webster, Carrie R. Allen, Clara Mae Bouché, Kate F. Foss, Blanche Baker, Eunice Thomas, Bertha Crilly, Rosi Pugh, Mary Larson, Mabel Pugh, Wilhelmuna Molenpash, Mary McClure, Ethel Moore, Anna B. Post, W. Phillips, M. R. Kuehn, Ethel M. Juhn, Frank H. Smith, Mildred Hawke, F. W. Smith, Dorothy Montgomery, Cora B. Haughey, Dora Brennstuhl, Faith Fry, Gertrude Hawke, Martina Lundy, Bess W. Tackett, May Hawke, Isabelle Mitchell, Ula Hess, Gladys Beecher, Lettie Wildman, Emma O. Koos, Anna Frye, Alice L. MacMahon, Nellie M. Bradock, Mary E. Newham, Neva Baumgarten, Elma M. Warner, Inez Korb, Mildred C. Merdith, Marie Graham, Jessie Severe, Ula W. Davis, Irene Hazelton, Gertrude Avey, Bertie Jones, Mayme Cagney, Florence Boyd, Mary Raymond, Katherine Ambrose, Mary H. Adam, Martha Stinger, Maude B. Stadden, Ida M. Henry, Mary Palmer, Louise Wulfoop, Lilian Seymour, Esther Banton, Catherine Mast, Laura Broome, Thelma Miller, Gertrude Harrison, Bess F. Laird, Jessie Browne, Emily Hall, Ruth Lollar, Edith Fennell, Grace Killworth, Edith Myer, Grace Gorby, Mary L. Kilpatrick, Thora MacDonagh, Florence Myer, Helen Hall, Nell Russell, Edith Hague, Edith Anderson, Hazel F. Armstrong, May Jones, Margaret Browne, MacDonagh, Edna Pine, Faith Yingling, May Van Horn, Sue Guthrie, Kate A. Murphy, Lulu Ampsper, Nellie McNeely, Laura Blane, Lillian MacNeely, Doris Avery, Edith M. Fleming, Daisy E. Stuart, Anna Fitzpatrick, Elizabeth Watkin, Louise Africa, Louise Elchorn, Lillian Johnson, Ethel Rutledge, Marie Lawver, Leona Borroway, Beatrice Orr, Minnie Wintermantel, Helen Miller, Nellie Smith, Anna M. Lyon, Carrie M. Kirby, Edna Swanson, Josephine Johnson, Matilda Desch, Daisy Harrington, Catherine Sachs, Jennie Wolf, Rose E. Sharritt, Helen Bell, Ada Simms, Gertrude Hall, Hazel Hall, Ada Hollar, Louise Shaner, Vernon Hitchcock, Helen Lavin, Lena Anderson, Sarah Williams.

The board recommended a new salary schedule for the present and next year, which gives a 10% increase to the principals, high school and grade teachers and which is as follows: The eight grades will be put on the same salary basis by the following plan: The maximum shall be \$340 per year, and the minimum \$600 per year. All grade teachers who have not reached this maximum will be granted a 10% per year increase until the maximum is reached. The maximum for principals of grade buildings of eight or more rooms will be \$1420, minimum \$1000. Such principals will receive a 10% per year increase until maximum is reached. These principals are placed on the same salary schedule as high school teachers. The maximum for principals of grade buildings of four or five rooms will be \$1100, minimum \$800. These principals will receive a 10% per year increase until maximum is reached. Principals having less than four rooms and less than \$800 will be on the same basis as those having four rooms with the exception that they will receive an additional amount of \$40 per room for the number of rooms above four.

Men and women in the high school are eventually to be put on the same salary basis by the following plan: The maximum for both men and women shall be \$1420, minimum \$800 per year. Teachers not having reached maximum will be given a 10% per year increase until maximum is reached.

Teachers who have not reached their maximum salary will receive \$20 extra for summer school attendance.

In addition to the adjustment according to the above, each teacher already teaching in the system shall receive \$100 extra. This extra does not apply to those entering the system for the first time.

Supt. Barnes was also given an increase of \$300 per year and Superintendent of Supplies Frank Handel was elected for a term of two years at a salary of \$143 per month, which is an increase of ten percent over his former salary.

The board by unanimous consent agreed to float a bond issue of \$100,000 to take care of the floating indebtedness of the past several years, the present bonded indebtedness of the school being very low. The rate of interest will be determined at a later meeting.

The annual budget was also passed by the board and calls for \$199,101, an increase over last year of \$30,000, due to the increase in salaries and the high cost of all material. The budget will be presented to the city budget commission at its next meeting, the first Monday in June.

Bids were received to supply the schools of the city with coal for the next winter season, about 1,000 tons being necessary. There were seven bidders. The Dixie Coal Co., The Crystal Ice & Coal Co., Sunlight Coal Co., Black Beauty Co., Grange & Son, Charles Meeks and The Wingate Coal Co. The bids received were on various kinds of coal and the board has not yet compiled them. The contract will be let at a special meeting to be called in the near future.

## SAYS WIFE ACCUSED HIM OF BEING SPY

Alleging that his wife accused him of being a German spy, Martin Scherfer has filed a suit for divorce against Dorothy Scheffer in common pleas court. They were married Feb. 13, 1913 and he also alleges in his petition that she has been guilty of misconduct and names a correspondent, stating that his wife has informed him that she hated him and loved the other man. A separation took place in March after the defendant had assaulted him, in one of the petition's statements. Plaintiff asks for a divorce and all relief to which he may be entitled.

## SALVATION ARMY ASKS ELKS TO BOOST FUND

Preceding the meeting of the Elk lodge last evening, Sergeant Herrin, lately returned from overseas, and who saw much service in the battlefronts of France, addressed the Elks on behalf of the local Salvation Army, which proposes a drive to secure funds to assist it in acquiring a permanent home. Herrin told of the great work done by the army abroad and of how the members crawled over No Man's Land with the shells shrieking around them to assist the wounded Yankee soldier boys. Seven candidates were initiated into the order: H. J. Bayer, A. H. Jones, C. J. Wickert, H. L. Ewald, H. A. Fitzpatrick, A. J. Denson and J. A. Clayton. A committee of five was appointed by Exalted Ruler Mandel Brashear to arrange for the lodge's participation in the welcome and home-coming of the returned boys, consisting of Harry D. Hale, Frank Neighbor, Barney Phalen, A. P. Hess and H. H. Shauk. A social session followed the meeting at which a delicious luncheon was served.

WILBUR DE ALENE

Wilbur De Alene, one of the racing celebrities on whom America will pin her faith in the International 500 mile Liberty Sweepstakes on the Indianapolis motor speedway, May 31st, has probably had more miraculous escapes from death without losing his nerve than any man in his dangerous profession, not excepting Barney Oldfield, who had quite a few.

In the 1914 road race at Elgin, De Alene blew a tire just before reaching the grandstand. The car skidded and lurched crazily along the narrow road, but through an exercise of superhuman skill, coupled with marvelous luck, De Alene managed to prevent it from crashing into the towering structure. When the car finally came to a stop in front of the pits, a sigh of relief welled from the throat of every spectator. A few inches more to the right, and the lives of fifty bystanders would have been blasted out of existence.

## Test of Woolens.

One test is to cut off a bit of the selvedge and touch a match to it. If it shrivels up, it does not burn, it is wool, but if the fabric burns with a flame it is cotton. Another way is to put a bit of the cloth in a test tube or other glass, and apply a solution of caustic soda. The soda will eat up the wool leaving that which is not wool.

# AMUSEMENTS

**ALHAMBRA.**  
"Married in Haste"  
The Alhambra today offers a new William Fox star and a good one in Albert Ray, who is seen in "Married in Haste." Besides this story, Houdini, master artist in the 13th episode, "The Master Mystery," is seen.  
"Married in Haste" is a good play. Sam Morgan is wealthy through inheritance of his father's estate—which he held in trust. He is a spendthrift, and when he marries Constance Winwood he has a long way off. To break Sam of his spending habits his bride and a lawyer named Downer, trustee of the Morgan estate, put in operation a plan whereby Downer will pose later as an abductor and Sam cannot get any money. On the wedding trip the youthful pair are put out of a hotel when a subtle initial check comes back "N. G." and they get into all sorts of trouble because Sam tries to spend money he hasn't got. While they are in a hotel a French valet—who is a crook—learning they have no

money, puts them in touch with a fence where they can swap their jewelry and evening clothes for everyday wear. Hernandez, the man who runs the fence, believes them to be crooks, gets Sam a job as a porter in a refinery because he has a scheme he wants to put over on the refinery directors.  
"Too Fat to Fight."  
In Rex Beach's latest photodrama, "Too Fat to Fight," there is much laughter, for Frank McIntyre is the principal player. Everyone knows that where the portly comedian happens to be laughter is lurking around the corner waiting to jump out and overwhelm him. He is irresistible. That's why the author chose him to play the part of "Dimples" Dalkyple in the patriotic picture, produced at the Goldwyn Studios.  
In "Too Fat to Fight" actual battle-field scenes are shown, with the Y. M. C. A. and Salvation Army huts as well as "Dimples," now a worker with the former organization, passes doughnuts and coffee to the doughboys. Although they are used in quantities the eatables are real and were prepared for the boys, actually U. S. Marines, by Florence Duxon, chief in Frank McIntyre's support. This feature comes to the Alhambra Friday.

**Billy Church.**  
Billy Church, sweet singer, and late with Al G. Fields' Minstrels, is putting much pep into the good Alhambra and Auditorium program this week. Mr. Church is well known to many in Newark and his singing this week should be the means of attracting large crowds to both popular theatres.  
Another Tax.  
Manager Fenberg had another jolt

three and one night, as the story goes, after an extremely trying day of studio work in "Common Clay," she was sitting in her library merrily going over the entire story. Her mind was thus engaged to the exclusion of all else. And as she looked out into space, her eyes rested on the crystal ball. It seemed to be enveloped in a light mist, which slowly lifted and there in the depths of the crystal she saw the story of "Common Clay" unfolding, as though it were caught from the very life.  
"I entered heart and soul into the making of this great modern story," explained Miss Ward. "I studied it from every angle. I read it and re-read it and became so saturated with it that I could feel every emotion of the girl, the secret sweetheart—the mother. The Lang crystal gave back to me a series of vivid pictures and one evening after one of these revelations, I was so overwrought that I swooned. Dr. Corbin Sherwood explains it all by that I was objectifying a subjective thought, or something of that sort. Which, however, does not explain anything to me. All I know is—and I regret that gentle Andrew Lang is not here to hear it—that I looked into a glass ball and saw the story of "Common Clay" in flashes, in scenes and then unfolding in logical succession. Nerves? Maybe, but I am still full of the mystery and wonder of it."  
This feature opens a three-day screening at the Auditorium starting Thursday.

What would you do if you were deeply in love with a woman who insisted you were her missing husband and all of whose kin insisted you were her husband and you were convinced you were not, although you did not know who you were? This amazing situation, depicting a titanic struggle between love and honor, is screened with gripping realism in "A Gentleman of Quality," the Vitaphone picture starring Earle

## The Values Of A Pipe

The fact is, the moment a man takes a pipe he becomes a happier. It's the poor man's friend, the rich man's companion. It calms the mind, soothes the temper and makes a man patient under difficulties.  
We venture to say that Honey Moon has made more good men, good husbands, kind employers and indulgent fathers, than any other blessed thing on the universal earth.  
This picture may be a little over painted but it's quite worth your while to try Honey Moon's virtues. It costs a dime from any tobacconist (larger size 15c). If you like Honey Moon after a trial, the dealer will refund your money.  
Try Honey Moon.  
Even at the present price of pork it is doubtful if you could make a silk purse from a sow's ear.

**Be Careful in Using Soap on Your Hair**

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.  
The best thing to use is just plain mul-ti-fied coconut oil, for it is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.  
Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

handed him yesterday in the way of a new tax, but as nothing is too good for his patrons he comes across.  
Mr. Gus Mueller, a personal friend of Fenberg and now traveling representative for The American Society of Composers, Authors and Publishers, dropped into the theatre while Mr. Church was singing yesterday afternoon and said, "Fenberg, have you permission for that fellow to sing that song?" Fenberg replied, "What you do, kidding me, Gus?" "No, but I am here to tell you that you must have a license to have played or sung any musical number composed by the following names, and he went on to tell of all the great ones, etc. Fenberg said, "Gus, I am a musician and have played everything new, old and etc., and never have paid for the right to use them and will not now." Gus then proceeded to show where courts had upheld the authors and the theatres, hotels, etc., had come across, or else they were fined \$25 for each offense. Fenberg then said, "Gus, what's the cost?" and when Mueller said the Auditorium would cost \$150 per year, Fenberg fainted, but he said nothing is too good for my patrons and he took out a license for both houses. The tax is based on seating capacity.  
Now, Fenberg, of his musicians or singers, can perform or vocalize any number put out by the society. Mr. Mueller said in part, that those who do not pay this tax or take out a license, will be subject to the court and the result might be bad. There will be investigators who will make visits to all theatres in the country. Mueller covers the southern part of Ohio, with headquarters at Cincinnati.

**AUDITORIUM.**  
"The Greatest Thing in Life."  
To see Miss Lillian Gish as Jeanette in "The Greatest Thing in Life" is to see her in a role entirely different from any in which she has recently appeared. The picture is an Artcraft production by David Wark Griffith and is being shown at the Auditorium.  
It is about Miss Gish as a rollicking girl, half hoyden, half dreamer. Her old father, who is homesick for his native France, keeps a little tobacco and news stand in New York City. Jeanette has to tidy up the living rooms, and attend customers.  
Very happy is she with today, but tomorrow is of great interest too for then will come her hero, a strong, brave man who loves the world as she does and likes to dream, too. At first she thought Edwy of Laxington might be the man. He was an elegant New York chap, but he called her a simple one day and left before she could really express her thoughts with the vigorous force that drove her tonight.  
The last screening is on tonight.

**"Common Clay."**  
Lillian W. H. who, incidentally, works in "Common Clay," she considers to be the most complete of her career. She watched the great picture on the screen with absolute indifference, not because she does not value it as a fine achievement, but for the reason that she has seen the realistic story played in an amazing manner.  
When Miss Ward was a young stage actress in London, she was married. An drew Lang among her distinguished literary acquaintances. The poet's escape had collected many odd objects from all corners of the globe, and the actress were married. The marriage was a drop of dew, as it is reported, for America, who, at the time, came interested in the fashion he had of crystal gazing.  
Miss Ward esteems the crystal globe one of the most precious of her treasure

## EMPLOYMENT CONDITIONS.

A few months ago the grape hangers were predicting there would be a great amount of unemployment. The soldiers, and munition workers, the women who took the soldiers' places, all had to be cared for, and there couldn't be jobs enough.  
But recent reports are going all the other way. The soldiers and munition workers are rapidly being employed, and women workers seem to find plenty to do. In the wheat belt people are already worrying how they are going to get the great crop harvested. Licking county farmers are crying for help and there seems to be plenty of work in other lines of activity.

Those who are holding back business enterprises because they foresee a period of depression, would seem to be fearful only of shadows. The stock market has witnessed a pronounced rise due to revival of confidence. It is realized that as quickly as peace is signed in Europe, the people over there will demand great quantities of American goods.

Employers would do well to realize that there may be a shortage of labor instead of a surplus. It would be wise to take every pains to train employees and help them acquire efficiency and good wages.

The constant shifting of labor from one place to another prevents working people from acquiring superiority in some particular line. The mechanic who keeps changing from shop to shop is apt to be a mediocre, while the one who stays year after year knows just what the requirements of that particular shop are and becomes exceptionally valuable. The same is true of the farm worker.

In times when work is abundant and labor seems scarce, many workers feel independent, and think they can get a job anywhere. No doubt they can. But when dull times come, those most recently hired are the first to go. Those who have been employed for a period of years are the ones who stay.

Naturally, when wages are high, when the sheep grow fat, it is that he is expected to keep his flock largely to supply the needs of the neighborhood with fresh mutton.

A throng of people are found at the stores buying garden seeds. Now it is mainly to see if there will be an equal crowd buying these during the hot weather.

Pale, weak, nervous people, or those suffering from weakness incident to war excitement or the dreadful epidemics, need the prompt, pronounced, permanent effects of iron, manganese, nux and pepsin as combined in Pepton. The run-down and debilitated find they pick up quickly when they take Pepton. Get it today and begin taking it at once.

## THE ATTITUDE OF WEALTH.

Not all wealthy people show disagreeable qualities of arrogance. A great many of them are simple minded folks, gracious to everyone and full of kindness. But some others feel their money very keenly. Riches bring a sense of power. If a person has a brutal nature, an acquiring wealth he also acquires contempt for less fortunate persons. Also he gets a habit of detraction, a feeling that by the force of dollars he can work his will.

Many people contribute to this arrogant attitude by a servile point of view toward money. While denouncing people of wealth, they feel flattered if the rich man invites them to dinner. The bitter Socialist sometimes feels pleased to be seen walking down the street with a hated capitalist.

Wealthy people frequently contribute to the gulf between rich and poor by separating themselves from the life of common folks. The man who develops a great estate and lives in a luxurious castle, has erected a barrier between himself and common humanity that is not easy to cross. Of course many wealthy men do cross it by democratic manners, by helpfulness and participation in all public movements. The rich people who live in a somewhat simple way get far more out of life.

Ordinary people are not called upon to show humility in the presence of the wealthy man, who may not be their superior in any way. Those who denounce wealth, yet bow in obsequious adulation before wealthy people, make themselves quite absurd.

Unless a man clearly obtained money by dishonest means, it is well to remember that wealth generally comes because some one rendered a great service to the community by promoting an efficient business organization.

## A CONFESSION OF FEAR.

(Cleveland Plain Dealer)  
The hide of William H. Taft, according to a Republican congressional leaders opposed to the League of Nations is to decorate one of the walls of the senate chamber. With President Wilson put "in a hole" and ex-President Taft's hide used for mural art purposes the league menace will be scotched and the republic's foundations preserved from crumbling. So sounds the tocsin. Mr. Lodge et al. have only begun to fight!

Though confident, of course, of the justice of their opposition to the League of Nations and of the probable state of public opinion touching the issue they raise, these Republican steersmen in the senate propose to take no chance with fickle destiny. They intend to permit no slip twixt the boast and the vote. Therefore, it is duly decreed and decreed that the new foreign relations committee which will handle the treaty shall contain only those Republicans who can be depended on through thick and thin to oppose the league. "Lanternesque" if Connecticut, whose nutmeg philosophy, contemporary plates no League of Nations, is made chairman of the committee on committees. After Lodge and Brandegee have hand picked the foreign relations committee a league of nations will have about as much chance with the committee as a safety razor salesman in a barbers convention.

The question that remains—the all important question—is whether the rest of the senate and the country will tolerate the kind of handling of the peace treaty; whether Lodge, Brandegee, Borah and the rest of the last ditch fighters against the league will be permitted to treat the issue of the league as if it were a partisan contention set up to influence next year's elections.

Neither Mr. Lodge, Mr. Borah nor Mr. Brandegee represents the Republic party in their hostility to the peace treaty which all Germany denounces. There are as many able, conspicuous Republicans in favor of the league as there are opposed to it. A united Republican opposition is as impossible as a united Democratic support. Party lines are certain to be broken. The attitude of the foreign relations committee will be important, but not a determining factor in the contest.

The people of the United States will decide. Senators are reaching Washington for the opening of congress on Monday. They individually have a pretty accurate idea of how their constituents feel about the league of nations and the other features of the German treaty. And the discussion has as yet scarcely begun. As soon as the treaty is laid before the senate it will become a topic of debate wherever a group of Americans gather. The opinion of the country will be read at Washington.

Nor will the men and women of America decide the question as Republicans and Democrats. Any belief that treaty and league constitute a partisan one-trick is monopolized at Washington, the country does not share the delusion.

This peace treaty, with the league of nations provisions interwoven into it, is the big, outstanding issue before the senate and the people of the United States. It is entitled to honest consideration, and anyone who tries to mix partnership with it does his country an ill service. Packing the foreign relations committee beforehand against the treaty is a confirmation of opponents of the measure that they fear defeat.

## ON BEING CONSTANT.

(Ohio State Journal)  
One of the shiniest arguments against a man is that he has changed his mind that he doesn't know what he is doing or more so. Maybe he was wrong then, maybe he is wrong now. Maybe he was wrong both times. That is very likely. There is no good reason to think he was right in either case. Students may have changed and teachers may change opinions. Maybe he has learned something, and maybe he has expressed an opinion and made a mistake. Maybe something more before he expresses another opinion. If a man depends upon his intellect for his support, he is one to change for he is blown in the wind. The only way for him to be constant is where he makes up his mind in his heart and then consults the divine faculty of the soul. The only opinion that is permanent and unchangeable is the one that has a moral basis. So a man would embrace an opinion that would hold fast, he must consult the moral attitude that it assumes. The ones who don't do this but go with the world are like wind and their opinions are everlasting.

It is a good plan to be prepared for an emergency and then to chances to one it won't turn up.

## BANKERS AND BUSINESS MEN URGE BUILDING TO BRING PROSPERITY

Statesmen, bankers and business men throughout the country are pointing to the resumption of building activities as the keystone upon which they must build our "after-the-war" prosperity.

Furthermore, they agree in saying that there was never a better time to invest money in a safe project as a home for housing conditions the country over are so inadequate that property values have risen, rents have increased and the home-builder will catch a "top" market with his finished building.

At the same time, every building will do its share in alleviating unprecedented housing conditions.

The money, thrown into circulation, will provide employment locally, will call for subcontracts for materials and give industry the impetus that it must have to get under way again on a peace basis.

Without this money in circulation, we will invite a period of industrial stagnation.

Some idea of the necessity for immediate building operations may be gained from the following information published by the Chicago Association of Commerce:

Conservative estimates indicate that at least 700,000 new homes must be built in the United States during the present year if the accumulated shortage of war years is to be met. Statistics show that during 1915 the volume of house-building operations was 14 per cent less than in 1913. The most striking result of the shortage of homes has been a large increase in rents. This increase has been greatest in cities where a large volume of war work was performed.

But with one exception, the minimum increase in rents has been 10 per cent. While the increased cost of material and labor has undoubtedly had its effect in raising rental charges, builders and real estate men believe that the predominant influence has been the cessation of activity in new building since 1914.

The department of labor is advised by the building and loan associations throughout the United States that in many times it requires the building of about 300,000 homes per year to supply the normal growth of the country and to replace loss by fire and other agencies. For two years this normal

## BUCKEYE LAKE TO OPEN FOR SUMMER

New Features Will Be Thrown Open For First Time Next Sunday—Improvements Made.

BUCKEYE LAKE, formerly known as Buckeye Lake, will formally open the summer season on Sunday, and one of the biggest reasons the lake has ever had is anticipated this year. In spite of the fact that the opening of the lake is not until this Sunday, for the past four weeks, large crowds have spent Sunday at the park.

A number of improvements have been made by the park management. The park pavilion and dance floor has been made smaller and an ice cream and soft drink concession runs the length of the floor facing on the lake. New seats have been placed.

One of the new features this year will be the mammoth slide, which has been erected in the large area adjoining the skating rink. It is said to be the largest slide. It is built with a view to the greatest safety.

A number of new cottages are being erected. Two are nearly completed. A picnic point, the place where the big fire last year took five of the prettiest cottages on the lake.

All the concessions will be in readiness, the hotels will all be opened and a big week is expected. The opening day follows during the week and many of the cottages are taken. There has been a greater demand for cottages for the entire season this year than ever before.

Robert Dold of the Buckeye band has closed a contract to furnish a band for the opening next Sunday. Dold has secured 20 musicians who make up a part of the famous old organization and they will furnish a musical program next Sunday afternoon.

## SOCIAL AFFAIRS

Reynard-Butler.

Announcement is made of the marriage of Mrs. Mabel C. Butler of Newark and Mr. Charles M. Reynard, a mechanical engineer with headquarters in McKeesport, Pa.

Mr. and Mrs. Reynard motored to Pittsburgh and were married there on May 1. They are now visiting relatives in Pennsylvania, Maryland Virginia and North Carolina. They will be at home in 655 East Main street on June 13, where the bride formerly resided.

Mrs. Harrison Snider was pleasantly surprised Sunday at her home, south of Thornville, in honor of her birthday anniversary. A delicious dinner was served to the following guests:

Mr. and Mrs. Allen Sturkey, Mr. and Mrs. Bert Blade, Mr. and Mrs. Charlie Woodard, Mr. and Mrs. Wm. Fulk, Mr. and Mrs. Elmer Sibert, Mr. and Mrs. Lester Jordan, Mr. and Mrs. John Luck, Mr. and Mrs. Charles Davis, Misses Flossie Fulk, Florence Woodard, Edna and Beadie Snider, Harold Snider, Eddie, Willis Woodard, Clyde, Walters, Harold Jordan.

Bourner Alspach's Sunday school class will meet in the school room of the First M. E. church Thursday, at 2 p. m.

Mrs. M. E. Moran will entertain the Trinity Sewing class at her home in Hudson avenue, Thursday afternoon.

At a tea given at her home, 662 Briggs street, on Sunday afternoon, Mrs. Rachel E. McLaughlin announced her approaching marriage to Mr. Arthur J. Popenhaeger. The wedding will be an event of early June. Cousins were held for the following: Miss Dolores Anglin, Miss Emma Schier, Miss Mabelle Johnson, Miss Rose Greenstein, Miss Agnes Theado, Miss Mabel Gantz.

Mrs. McLaughlin is a former resident of Newark, and is a graduate of Newark high school, class of 1918. Mr. Popenhaeger is the son of Mr. and Mrs. F. J. Popenhaeger of Columbus.

In response to original invitations many guests assembled at the home of Mrs. C. F. Legge in Hudson avenue yesterday afternoon when a delightful benefit was given for the Whatsoever Circle of The Kings Daughters.

Invitations in the form of miniature aprons with pockets were sent out and the guests were requested to bring in pennies the inches their apron strings measured. The aprons were beautifully arranged with crab apple blossoms and the hours from 2 to 6 o'clock. An interesting program made up of music and readings was given by Miss Sarah Stetson, Mrs. E. M. Stetson and Mrs. William Stetson.

A feature of the afternoon was the program given by the Uica High School orchestra. The Uica High School is supervised by Mrs. J. C. Deegan. The orchestra members were: William Kempton, Loren Schell, Zephania Hall, Margaret Weston, Dorothy Kirkpatrick, Evelyn Lempeur, James Beebe, Louis Spauld, Harold Norris and Earl Clutter.

Punch and refreshments were served in the dining room and a nice sum was secured which will be used in furthering the charitable work of the organization in the young.

A party of young folks motored to Columbus Friday night on a theatre party. Those who enjoyed the party were: Misses Helen Spring, Nellie Ingham, Mary Waters, Nellie Christie, Messrs. Frank Hill, Clarence Morrey, Henry McDonald, Clarence Ford.

Mr. and Mrs. E. B. Houck of Newark have been visiting the week with their daughter, Mrs. J. C. Deegan, Mrs. W. H. Hutchins and Mrs. R. E. Schultz of Asheville. While there they celebrated their fifty-third wedding anniversary on May 19.

The all day sewing of the Royal Neighbors at the home of Mrs. Stella Gordon, 215 North Fifth street, Friday, will work to work toward this organization for the Red Cross.

Annals-Brown.  
The marriage of Miss Rose Brown and Mr. Albert A. Brown took place on Tuesday afternoon at the home of the bride's mother, Mrs. A. M. Brown, 1010 North 10th street. The wedding was performed by Rev. L. L. L. of the First Trinity Lutheran Church.

## DRIVE URIC ACID FROM YOUR SYSTEM

AMBITION SALTS

Most people need an occasional remedy to make the eyes bright, the skin clear, the stomach strong, the blood pure and the liver and kidneys healthy. If you're out of sorts, tick the vim, vigor and "pep" you'd like to have, try AMBITION SALTS—the new, pleasant, effervescing kind. They start you right in the morning. Cleanse your system of the dangerous uric acid poison which is responsible for so much indigestion, biliousness, headache, acid stomach, rheumatism and kidney and liver trouble. Forget the ailments and miseries that make life a burden and be your old real self again. A large bottle of AMBITION SALTS costs only fifty cents at T. J. Evans' and money will be refunded on the first bottle purchased if you are not satisfied. Try this. It's surely worth while to feel ambitious, to have the energy which makes you go to work eagerly, to accomplish to your satisfaction what you have to do, to feel again the glow of perfect health, strength and vigor. (Adv.)

## OBITUARY

Mrs. James Livingston.  
Mrs. Mary Alice Livingston 52, wife of James Livingston died Tuesday afternoon at the City Hospital where she was taken two weeks ago for an operation. Mr. William Howard left Tuesday for Massillon where he will visit his niece Mrs. Stanton Hilberry.

Miss Ann Hinger went to Sandusky this morning where she was called by the serious illness of her uncle William Baker.

Joseph Dwyer who has spent the past eighteen months in the U. S. navy was discharged Tuesday at Pittsburgh and returned to his home here.

Bernice Gray was removed from the Sanitarium to her home in the rear of 248 North Fifth street Tuesday evening in the Bradley ambulance.

## THE COURTS

Marriage Licenses.  
Hoy J. Kuter of Columbus and Miss Terese C. Mills of this city. Rev. H. M. O'Hoyan named to officiate.

Admiral N. Vanhook, sheet metal worker, and Miss Rose Higgins, both of this city. Rev. W. L. House named to officiate.

Injunction Granted.  
An injunction was granted Tuesday to Clement Kelley against the construction and improvement of a ditch by the county commissioners in Granville township. Kelley was required to give bond to the sum of \$500 in common pleas court until the matter is heard and a final decision on.

Beef Suet Not Indispensable.  
Norway has discovered that beef suet is not absolutely necessary to the manufacture of margarine. Cod liver oil, herring oil and other fish oils are said to be excellent substitutes.

### MEMORIAL SHAFT GOES TO COUNTY WITH BEST RECORD

Licking county is to be afforded the opportunity of securing a Victory Memorial shaft without cost. The Ohio War Savings committee announces that it will give a \$1,000 monument to the county selling the largest percentage of its 1919 quota of War Savings Stamps during the months of June, July and August. This arrangement insures an equitable contest between the larger and smaller counties.

The shaft weighing many tons and standing 30 feet higher is to be hewn from Barre granite, the most beautiful and most expensive material in the world for such work. Barre granite comes from the sturdy Green mountains of our eastern coast and is the standard by which all other granites are measured. Its distinctive mottled effect makes it stand supreme as a monumental stone of dignity, durability and beauty. It has a fine grained crystalline texture, a rich color and is polished perfectly to high shining and delicate inscriptions and decorations.

Some of the country's best known sculptors are now busily engaged fashioning this shaft which according to its builders will be one of the most beautiful pieces of statuary in the United States. In design it will be emblematic of victory while its inscriptions will be commemorative of those who lost their lives in the great war. Should this striking monument be awarded to this county, it will likely be consigned to the memory of its boys who gave their lives and stand as a symbol of the successful fight to make the world safe for democracy. There is no doubt but that this wonderful award will stimulate the sale of War Savings Stamps in this community.

The regular meeting of the shaft will take place next Labor day. The dedicatory address will be delivered by Governor James M. Cox. Music will be furnished by the old Fourth Ohio band (Banbury boys), while American aviators will drop flowers from the sky as the shaft is unveiled.

The Festival association announces the first performance of the Masque written for the South Plaza of Denison Campus, on Memorial Day, at 6:30 p. m. This composition has been the work of over two years, musical setting and pageantry of the highest order. It is written by Miss Nellie Ballou of Newark. Rehearsals are proceeding smoothly, each section of the cast under skilled direction. It is something of an innovation since the first of the Masque, and its presentation is anticipated as one of the greatest delights of the year. If the weather prevents its performance on Memorial Day, it will be given on the following day.

Miss Mary Lois Lockhart, mezzo-soprano, gave her graduation recital Tuesday evening at Festival hall before a company of invited friends, and a large number of the audience. The program was well chosen and varied, including a group by E. W. Soule, head of the vocal department, "Sunshine" and "Time," which were especially commendable. The audience, although it was not so large as the previous ones, was well represented by the presence of the faculty and the presence of the students. The program was presented in a most satisfactory manner, and the audience was well pleased with the results of the recital.

Miss Lockhart's recital, this evening, was a most successful one, and the audience was well pleased with the results of the recital.

### IRONING WITHOUT EFFORT

No bending over an ironing board—none of the fatigue that comes from continued use of an iron—all this is possible with a

### Western Electric SIMPLEX IRONER

This machine will make a permanent place for itself in any household. It does the ironing as well as it can be done by hand and does it quickly.

Where there is a Simplex Ironer there is a tremendous saving on laundry bills.

The increase in the amount of things laundered at home will not cause servant trouble—it causes no extra work.

The SIMPLEX IRONER will do—  
Handkerchiefs, napkins, nightgowns, pajamas, bed spreads, sheets, table cloths, curtains, aprons, blouses and other plain wearing apparel, underwear, hosiery, negligee shirts and many other things that now go to the laundry.

# BUILD NOW!

**H**OUSING conditions in Newark are becoming strained. There are not sufficient desirable places to go round. We're crowded. It's a situation which we can relieve by BUILDING NOW. Homes are scarce now—what would have happened if Newark had met the demands of the Tire Company? Ask the Ohio Cities Gas Company as to what they are most afraid of they'll tell you a lack of homes here to meet the needs of their employees.

**G**ET AWAY from the policy of seeing three dollars rolling back before you spend one—remember the parable of the "five wise and the five foolish virgins." Be ready for industrial expansion—it'll never come unless we are ready to receive it with open arms. Newark wants new industries. The Chamber of commerce is giving intensive effort toward industrial expansion—but you MR. CITIZEN must provide new houses to meet the situation—and you can't wait until the industry knocks at the door. It's too late then.

He has been released from service but will be held in the naval reserve. He was first sent to Great Lakes and later to Harvard University. He has been flying at Long Island.

No Person Has Seen the Sun.  
Astronomers say that no one has ever seen the sun. A series of concentric shells envelops a nucleus of which we apparently know nothing except that it must be almost infinitely hotter than the hottest furnace, and that it must amount to more than nine-tenths of the solar mass. That nucleus is the real sun, forever hidden from us. The outermost of the enveloping shell is about 5,000 miles thick, and is called the "chromosphere."

In the past it's a case of water, water everywhere, and not a drop to drink.

## AMERICA'S IMMORTALS

HAROLD I. JOHNSTON,  
Private, First Class, Co. A, 358th  
Infantry.

Private Johnston was awarded the Distinguished Service Cross for conspicuous gallantry, near Peulilly, France, November 9, 1918. When information was desired as to the enemy's position on the opposite side of the river Meuse, Private Johnston, with another soldier, volunteered without hesitation, and swam the river to reconnoiter the exact location of the enemy. He succeeded in reaching the opposite bank, despite the evident determination of the enemy to prevent a crossing. Having obtained the information, he again entered the water for his return. This was accomplished after a severe struggle, which so exhausted him that he had to be assisted from the water, after which he rendered his report of the exploit. His mother, Mrs. Belle Renshaw, lives in Denver, Colo.

W. E. Stoner of The Times Recorder Force, Gives Strong Reasons For the Advice.

Mr. Stoner runs one of the linotype machines in The Times Recorder composing rooms at Zanesville and has done so for years. His many friends will be glad to hear how he banished nervousness and sleeplessness. He told his druggist about it a few days ago in the following words: "For several years I was very nervous and couldn't sleep at night for hours. I heard Nerv-Worth was helping so many people I decided to give it a trial. The first dose actually made me feel better and I got a good night's rest. I recommended Nerv-Worth to anyone troubled with sleeplessness and nervous troubles." "W. E. STONER, "10 Ball Street, Zanesville."

## Ferryboats of Bullock Skin.

Everybody owns a private ferryboat down in the Himalayas. And what's more, everywhere the Himalayan goes his ferryboat is sure to go—provided there is water to be crossed. The boat, weighing but a few pounds, can be readily carried on the back. The ferryboat of the Himalayas is only an inflated bullock skin. A single skin will readily hold up a man, while two or three skins can be fastened together when two or more persons are to cross a river. In the latter case the skins are held together by a simple wooden framework and net, which also serves as the deck of the odd boat.
